

IP IN CENTRAL FLORIDA

A quarterly newsletter brought to you by APIC 092 Chapter

VOL. 1, ISSUE 2

11.14.2025

Celebrating International Infection Prevention Week 2025

Our infection preventionists around Central Florida celebrated with escape rooms, carnivals, flu vaccine events, rounding with candy, and trips to Disney Springs. On behalf of the APIC CH092 Board, we thank you for the outstanding work you do everyday to keep your patients and staff safe.

Free Webinar w/ CEUs/IPUs

Water is a fundamental part of life and plays a vital role in health and well-being. Due to concern over perceived water contaminants, many healthcare facilities have transitioned to waterless hygiene without examining the safety of properly sourced tap water. This presentation will explore the essential role of water in infection prevention, historical shifts in its usage, the psychological and physical benefits of water for patients, and the importance of adhering to safe bathing practices.

December 12, 2025 from 6:00pm EST
Hygiene with Hospital Water: Is it Safe?

Karen Ward, RN, MOAM, CNOR

Antiseptics Clinical Director, Mölnlycke
